

Coperion ServiceBox CSB 4.0

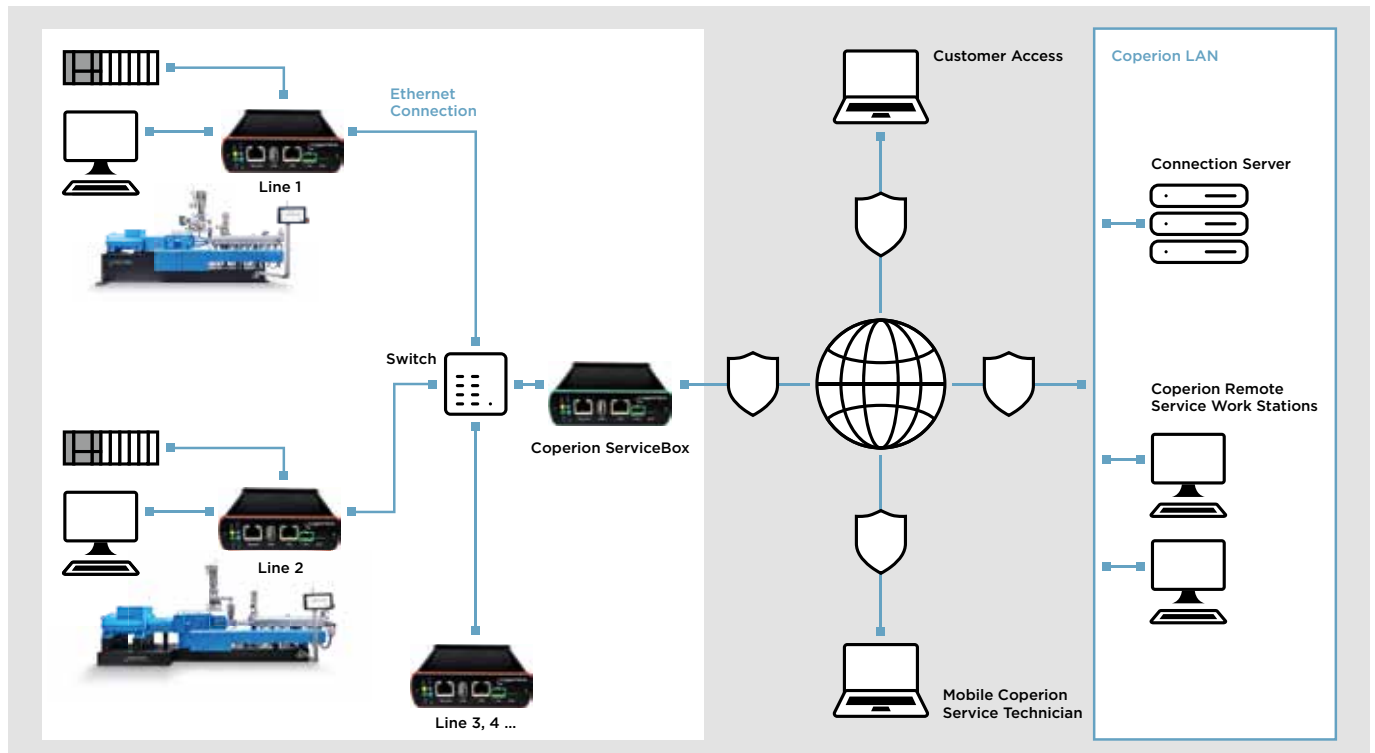

- _ available since 12.2022
- _ improved remote service
- _ one to one replacement opportunity
- _ adjustments to the machine or PLC are not required
- _ superior security features compared to the old Coperion ServiceBox

OBSOLESCENCE ANNOUNCEMENT

The old Coperion Service Box CSB will not be supported anymore. Please be informed, that further Remote Support with our old box is not possible anymore. The replacement of the boxes must take place immediately.

Service Network with Coperion's CSB 4.0

› THE CSB 4.0 FEATURES A MORE SECURE NETWORK STRUCTURE AND ONLY REQUIRES ONE INTERNET CONNECTION.

Red ServiceBox CSB 4.0

Edge device that isolates each individual machine from other machines and from everything else in your network. Data is collected and relayed to the **Green ServiceBox 4.0**.

Green ServiceBox CSB 4.0

Gateway that encrypts and consolidates data generated on the shop floor before it is transmitted to the cloud. Acts also as gateway for **Red ServiceBox 4.0** or provides access to all machines. Only one internet connection is required.
