

Solutions for Efficient Plastics Processing

You are invited to attend
a FREE technical seminar!

This FREE one-day seminar offers plastics processors detailed information on key topics of prime importance to the plastics industry.

Learn more about the future of efficient compounding technology and how to overcome challenges in compounding. What is more, we present innovative recycling solutions and the benefits of precise feeding and first in class material handling technologies. Our experts also tell you how to optimize your efficiency with complete plants and customized service offerings.

Of interest to general managers, production engineers, purchasing managers and all others involved in plastics processing.

September 25, 2025

Le Meridien Putrajaya

Hear Presentations from the following Companies:

Coperion

Shape what matters for tomorrow™ – Guided by our Purpose, Coperion develops innovative solutions and products for various challenges in the plastics, plastics recycling, chemical, battery, food, pharmaceutical and mineral industries.

Coperion is a global industrial and technological company in the areas of compounding and extrusion systems, sorting, shredding and washing equipment, including conveying, mixing and feeding technology. In our three Divisions, Polymer, Food, Health & Nutrition as well as Aftermarket Sales & Service, Coperion employs 5,000 people at 50 locations worldwide striving to create the future of tomorrow.

Maag

MAAG Pump Systems, Automatik Plastics Machinery, Gala Industries, Reduction Engineering Scheer, Ettlinger and XanTec, AMN and Witte – eight successful and well experienced companies have joined forces to become the global partner for the polymer industry. As manufacturer of gear pumps, pelletizing, pulverizing, filtration systems and automation solutions, Maag offers top-grade equipment for your demanding requirements – not only for polymer applications, but also for the chemical, petrochemical, pharmaceutical and food industry.

We offer customized product solutions and services from a single source to maximize your performance and create a competitive advantage. More than 1,500 employees globally are always at your service with their great know how.

Solutions for Efficient Plastics Processing

Learn about exciting advances in these process technologies for today's demanding plastics processing applications:

8:30	Registration
9:15	Welcome Peter von Hoffmann General Manager, Business Unit Compounding Machines Engineering Plastics and Special Applications Coperion Stuttgart
9:30	The Future of Efficient Compounding Technology: New Developments in Engineering Plastics, Biopolymers and Other Compounding Tasks Wikanda Khomchu Sales Manager Engineering Plastics Coperion SEA
10:00	Coffee break
10:15	Innovations in Plastics Recycling Wikanda Khomchu Sales Manager Engineering Plastics Coperion SEA
10:45	Maag presents: Pelletizer Solutions - Highly Efficient Chew Pheng Huat General Manager Maag Service (Malaysia)
11:15	Understanding the Impact of Process Variables in Twin Screw Extrusion Peter von Hoffmann General Manager, Business Unit Compounding Machines Engineering Plastics and Special Applications Coperion Stuttgart
12:00	Lunch
13:00	Coperion Nanjing: Compounding Solutions for an Optimized Productivity Gavin Wang Sales Director Coperion Nanjing
13:30	Why Precise Feeding Saves a lot of Money: The Importance of Accurate Feeding for an Efficient Production Process SC Yong Regional Sales Manager Coperion Singapore
14:00	First-Class Handling for First-Class Products: Special Components in Material Handling Plants Jonathan Tan Siew Hung Regional Sales Manager - Components Coperion Singapore
14:30	Individual Plant Concepts and Customized Systems: Why an Efficient Plant is More Than Just the Sum of its Parts Peter von Hoffmann General Manager, Business Unit Compounding Machines Engineering Plastics and Special Applications Coperion Stuttgart
15:00	Coffee break
15:30	Coperion Service: 450 Partners Secure your Future Chanakan Wasinchatchawan Sales Engineer Coperion SEA
16:00	Questions and Answers
16:30	Adjourn
