

# Solutions for Efficient Plastics Processing

**You are invited to attend  
a FREE technical seminar!**

This FREE one-day seminar offers plastics processors detailed information on key topics of prime importance to the plastics industry.

Learn more about the future of efficient compounding technology and how to overcome challenges in compounding. What is more, we present innovative recycling solutions and the benefits of precise feeding and first in class material handling technologies. Our experts also tell you how to optimize your efficiency with complete plants and customized service offerings.

Of interest to general managers, production engineers, purchasing managers and all others involved in plastics processing.

**February 6, 2025**

Jio World Convention Centre  
G Block, Bandra Kurla Complex  
Mumbai 400 098, Maharashtra, India

**Register online at:**

**Hear Presentations from the following Companies:**

## Coperion

Shape what matters for tomorrow™ – Guided by our Purpose, Coperion develops innovative solutions and products for various challenges in the plastics, plastics recycling, chemical, battery, food, pharmaceutical and mineral industries.

Coperion is a global industrial and technological company in the areas of compounding and extrusion systems, sorting, shredding and washing equipment, including conveying, mixing and feeding technology. In our three Divisions, Polymer, Food, Health & Nutrition as well as Aftermarket Sales & Service, Coperion employs 5,000 people at 50 locations worldwide striving to create the future of tomorrow.

## Omya

Omya is a leading global producer of industrial minerals and a world-wide distributor of speciality materials. Founded in Switzerland in 1884 and privately owned, we employ 9,000 people across 170 locations in 50 countries. Omya provides added-value products and services from responsibly sourced materials to meet the needs of current and future generations

THINKING OF TOMORROW

The company purpose, “Making life better through our passion for minerals and chemistry” unites 9,000 employees around the world. From the scientists in our innovation labs to the engineers overseeing our production plants and the teams working with customers day in day out, we are always Thinking of Tomorrow and how we can improve life for current and future generations. This often means finding ways of helping our customers become more sustainable, by reducing their carbon footprint, optimizing their use of resources, minimizing waste, improving circularity or protecting the environment.

## ECON

ECON GmbH, founded in 1999, specializes in designing customized underwater pelletizing systems for polymer processing, compounding, and recycling. To meet the growing demand in the plastics industry, ECON Machinery Pvt. Ltd. was established in 2013 as a 100% subsidiary of ECON GmbH in Vadodara, Gujarat, India. The facility is equipped for designing, engineering, manufacturing, and supplying underwater pelletizing systems and accessories, with strong support from ECON GmbH.

ECON is a leading provider of high-performance pelletizing systems, serving industries such as polymer processing, compounding, masterbatch production, thermoplastic elastomers, and recycling. As an owner-managed company, ECON is known for its quick decision-making, flexibility, and focus on customer satisfaction. With manufacturing facilities in Austria, the USA, and India, and a global presence, ECON stands out as a world leader in supplying underwater pelletizing systems. Through continuous innovation, R&D, and a focus on energy efficiency, safety, and environmental standards, ECON remains a trusted partner for clients worldwide. “PELLETIZING IS IN OUR DNA,” and ECON’s solutions are designed to meet the evolving needs of clients, ensuring profitability and performance.

# Solutions for Efficient Plastics Processing

Learn about exciting advances in these process technologies for today's demanding plastics processing applications:

## Seminar Program:

- 9:00      **Registration**
- 9:30      **Welcome**  
Peter von Hoffman | General Manager, Business Unit Compounding Machines Engineering  
Plastics and Special Applications | Coperion Stuttgart
- 10:00     **New Omya Products to Address Challenges in Compounding**  
Ashish Bhatt | Head of Technical Service - Polymers | Omya
- 10:30     **Innovations in Plastics Recycling**  
Peter von Hoffman | General Manager, Business Unit Compounding Machines Engineering  
Plastics and Special Applications | Coperion Stuttgart
- 11:00     **Coffee break**
- 11:15     **The Future of Efficient Compounding Technology: New Developments in Engineering  
Plastics, Biopolymers and Other Compounding Tasks**  
Preet Bhagwanani | General Manager Sales | Coperion India
- 11:45     **Latest Developments in Polyolefin Compounding**  
Vinay Kumar | Sales Manager | Coperion India
- 12:00     **Individual Plant Concepts and Customized Systems: Why an Efficient Plant is More  
Than Just the Sum of its Parts**  
Shamsher Singh | Vice President-Customer Service | Coperion India
- 12:30     **Lunch**
- 13:30     **Innovation Leader in Underwater Pelletizing System**  
Ram Dayama | CEO India | Econ
- 14:00     **Why Precise Feeding Saves a lot of Money: The Importance of Accurate Feeding for an  
Efficient Production Process**  
Shalom MJ | Regional Sales Manager | Coperion India
- 14:30     **First-Class Handling for First-Class Products: Special Components in Material Handling  
Plants**  
Anshul Mathur | Senior Sales Manager | Coperion India
- 15:00     **Coffee break**
- 15:15     **Coperion Nanjing: Compounding Solutions for an Optimized Productivity**  
Preet Bhagwanani | General Manager Sales | Coperion India
- 15:45     **Coperion Service: 450 Partners Secure your Future**  
Shamsher Singh | Vice President-Customer Service | Coperion India
- 16:15     **Questions and Answers**
- 16:30     **Adjourn**
